SUPERB HANDLING PERFORMANCE

ULTRAC VORTI+

CONTROL AND PRECISION HAVE NEVER BEEN SPORTIER

BENEFITS

- Precise and responsive performance, especially while cornering
- Superior wet and dry braking
- Lower fuel consumption and extended tire life

FEATURES

- Stiffer shoulder and sidewall construction with 13% larger bead area*
- High traction tread compound with optimized tread block for stability under braking and increased grip both on wet and dry roads.
- Next generation body compounds to reduce rolling resistance

* Data based on internal testing compared to predecessor Ultrac Vorti in development size 245/45 R18 (Y) XL

ULTRAC VORTI R+

MAXIMUM PERFORMANCE FOR YOUR SPORTS CAR

BENEFITS

- High level of control, even at high speeds
- Direct and predictable steering precision
- Exceptional dry braking performance

FEATURES

- Tire contour designed for minimum deformation while cornering
- Significantly larger apex base combined with stiffer sidewall construction
- Tread material with speciality polymer and high amount of silica in an optimized tread pattern

ADVANCED TECHNOLOGY*

Performance oriented tread pattern

- Tread block stiffness is optimized to provide extra stability during braking
- Tire contour with large bead area is designed for minimized deformation while cornering
- Stable center rib and a solid outer shoulder construction for precise and responsive steering, even at high speeds

Dedicated All-wheel- and rear axle versions

- All-wheel dimensions are designed with lower belt angle for optimal steering precision
- Rear axle dimensions are designed with wider belt angle for even better stability
- All-wheel dimensions are geared with circumferential grooves for efficient water drainage on wet roads, leading to superior wet handling and optimal aquaplaning prevention

Next generation compound

- High traction tread compound amplifies grip on both wet and dry roads
- Next-generation body compounds – in body ply, apex and rim cushion – to reduce rolling resistance
